

# 5 Reasons It Pays To Work With GuideStone®

For 60 years, GuideStone® has served those who serve the Lord with high-quality health plans and a full suite of coverage solutions designed specifically for churches and ministries. But did you know that you can offer our one-of-a-kind coverage to your church, ministry and faith-based nonprofit clients?

**Here are five reasons it pays for you to work with GuideStone:**

## 1 **We will honor your relationships**

When you help enroll the churches and ministries you work with in our unique health plans, GuideStone facilitates payment from the clients to you as a broker.

## 2 **You can offer your clients a lower-cost option**

GuideStone's status as a self-funded church plan means our prices are calculated to break even, not make a profit.

## 3 **We have what your church and ministry clients are looking for**

GuideStone's plans respect the sanctity of human life, so our members are not forced into plans that cover abortions or abortion-inducing drugs.

## 4 **They can reap the benefits of healthy living**

GuideStone's plans are risk-rated, so your church and ministry clients with low claims experience will pay less.

## 5 **You will be offering a one-of-a-kind alternative**

Ultimately, GuideStone is a ministry, so our goal is to provide quality, cost-effective medical coverage to churches and ministries — freeing them to focus on fulfilling their calling.

Our self-funded church plan solutions work just like other fully insured options, so there's no need to worry about extra fees or coverage. **By working together, we can offer your clients quality coverage at a lower monthly cost!**
